Dear PurpleLily friends,

It is with great pleasure that I update you on PurpleLily’s progress. It has been a very productive and exciting time. For one thing, we signed a Collaboration Agreement with Aidha -Singapore to deliver the Financial Compass Club Programme in Kuching.

We have also moved into our own PurpleLily office.

Last, but not least, the most important development in the last few months is of course, the women we have reached through our workshops!

We are delighted that our PurpleLily team is growing and some wonderful women have joined us. (see below)

Our website & Facebook page are now live!

We are delighted that talented, vibrant and interesting women have joined PurpleLily as volunteers.

Cheryl Tiong, Suraya Bujang, Freda Johh, Stephanie Phan & Emma Martin bring valuable skills and local knowledge to PurpleLily.

With their help, we hope to facilitate our Life Skills workshops and Financial Club in Bahasa Malay (BM) in early 2013. We will therefore reach more women!

Thank you ladies for your support, time and energy!

commenced 3 Financial Clubs. The impact and the confidence the participants are gaining from our workshops, has encouraged us to keep working hard and to reach more women!

Ginette Collin
Director

About Us - Our expanding team

Thank you ladies for your support, time and energy!
In the last few months, PurpleLily has facilitated a wide range of workshops including: self-confidence, goal setting, mind mapping, stress management and presentation skills to a range of women’s groups in the Kuching area. We have also commenced 3 Financial COMPASS CLUBS.

We are very pleased to see, based on the feedback from our participants, that our delivery style is unique and highly appreciated. Our workshops are designed with the participants in mind rather than lecturing or simply delivering information. PurpleLily’s aim is to have the participants engaged and actively learning to ensure they benefit from our workshops. We therefore include a variety of group and individual activities such as: writing, discussing & support, exchanging ideas, group tasks & interactions, practical steps and we make sure there is always plenty of laughter.

We believe that by creating this type of learning environment, our Life Skills and Financial Education courses will be interesting and knowledge and skills can be expanded.

We also provide summary notes to the participants at the completion of each workshop to support their ongoing development in the future.

Our mission and vision is to “inspire and empower women” and we were pleased to be involved with Life Skills training for female students in schools.

We facilitated 3 hour Leadership workshops for 45 girls in 2 government schools. The feedback from the students and principals were very positive and we look forward continuing our involvement in this special project.

Leadership in Schools
